ORDINANCE NO. 61-2014

Amending CHAPTER 32, "UTILITIES," ARTICLE VI, "WATER CONSERVATION PLAN" DIVISION 1, "GENERALLY", SECTION 32-142, "APPLICATION" to read as follows:

DELETE:

Sec. 32-142. Application.

The provisions of this plan shall apply to persons, customers, and property utilizing the Abilene Water Utility System wherever situated, including customers such as water supply corporations, and any others that receive water from the City of Abilene on a contract basis. If a shortage of water in the city's water supply occurs, the water to be distributed shall be divided among all users pro rata, according to the amount each may be entitled to, so that preference is given to no one and everyone suffers alike.

These water use restrictions do not apply to the use of alternate water sources, including non-potable water and well water. Customers using water from private wells on days other than those designated in this plan, or those watering from private wells during the hours of 10:00 am and 6:00 pm., must post a sign stating "WELL WATER". The sign must be properly sized and posted so it is visible from the street. The City of Abilene strongly encourages the use of alternative water sources for landscape purposes.

ADD:

Sec. 32-142. Application.

The provisions of this plan shall apply to persons, customers, and property utilizing the Abilene Water Utility System wherever situated, including customers such as water supply corporations, and any others that receive water from the City of Abilene on a contract basis. If a shortage of water in the city's water supply occurs, the water to be distributed shall be divided among all users pro rata, according to the amount each may be entitled to, so that preference is given to no one and everyone suffers alike.

These water use restrictions **do not** apply to the use of alternate water sources from groundwater (well water). Customers using water from private groundwater wells on days other than those designated in this plan, or those watering from private groundwater wells during the hours of 10:00 am and 6:00 pm., must post a sign stating "WELL WATER". The sign must be properly

sized and posted so it is visible from the street. The City of Abilene strongly encourages the use of alternative water sources from groundwater for landscape purposes.

These water use restrictions **do** apply to those persons without a reclaimed water contract who divert raw surface water from Lake Kirby or Lake Fort Phantom Hill for landscape irrigation. Whenever the term or reference to water, or potable water or similar and like words are used in this "Water Conservation Plan", it shall be understood to include the use of raw surface water from Lake Kirby and Lake Fort Phantom Hill for landscape irrigation.

These water restrictions **do** apply to the time for the use of treated wastewater (reclaimed water) for landscape irrigation. Use of reclaimed water or raw water under a reclaimed water contract for landscape irrigation is only allowed during the hours of 12:00 midnight to 10:00 A.M., and from 6:00 P.M. until 12:00 midnight. All other uses of reclaimed water shall be in accordance with Title 30 Texas Administrative Code, Chapter 210 and the City of Abilene's Authorization No. R10334-004, as amended.
