

ORDINANCE NO. 47-2022

AN ORDINANCE AMENDING AND RENUMBERING OF CHAPTER 29, "STREETS AND SIDEWALKS," ARTICLE X, "STREET MAINTENANCE FEE," SECTION 29-172, "GENERAL REGULATIONS" OF THE CODE OF THE CITY OF ABILENE, AS SET OUT BELOW, PROVIDING A SEVERABILITY CLAUSE; AND CALLING FOR A PUBLIC HEARING

WHEREAS, the City Council adopted an ordinance on June 14, 2018, entitled Street Maintenance Fee, Section 29-172, Article X, of Chapter 29, Streets and Sidewalks; and

WHEREAS the City desires to amend the ordinance to remove the Street Maintenance Fee Schedule because the street maintenance fee amounts are now listed and located in the City's Fees and Charges Ordinance; and

WHEREAS, the City desires to renumber the section number to 29-181.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ABILENE, TEXAS

- PART 1:** That Chapter 29, "Streets and Sidewalks," Article X, "Street Maintenance Fee," Section 29-172, "General Regulations," of the Code of Ordinances, City of Abilene, Texas, is hereby amended as set out in Exhibit A, attached and made a part of this ordinance for all purposes.
- PART 2:** That the code section shall be renumbered from 29-172 to 29-181.
- PART 3:** That if the provisions of any section, subsection, paragraph, subdivision or clause of this ordinance shall be adjusted invalid by a court of competent jurisdiction such judgment shall not affect or invalidate the remainder of any section, subsection, paragraph, subdivision, or clause of this ordinance.

PASSED ON THE FIRST READING this 8th day of September, 2022.

A notice of the time and place, where and when said ordinance would be given a public hearing and considered for final passage was published in the Abilene Reporter-News, a daily newspaper of general circulation in the Abilene, said publication being on the 18th day of September, 2022 the same being more than 24 hours prior to a public hearing being held in the Council Chamber of the City Hall in Abilene, Texas, at 8:30 AM on the 22nd day of September, 2022 to permit the public to be heard.

PASSED ON SECOND AND FINAL READING this 22nd day of September, 2022.

ATTEST:

Shawna Atkinson, City Secretary

Anthony Williams, Mayor

Approved:

Stanley Smith, City Attorney

Exhibit A

Sec. 29-181. General regulations.

(a) Definitions.

Benefitted property, or property. A property located within the City limits that reasonably benefits from vehicular or pedestrian traffic or use.

Category or categories. One (1) of sixty-three (63) categories, or as many categories as may be modified from time to time, recognized in the trip factor index determined from the land uses of the nonresidential customers.

City limits. The corporate boundaries of the City of Abilene, Texas.

Municipal services statement. The monthly invoice that residences and businesses receive for services provided by the City, which may include water and wastewater, solid waste, drainage, and other municipal services and charges.

Street maintenance fee. A fee that is established by this section and which is assessed against, and collected from, owners or occupants of a property for the purpose of funding the planning, construction, operation, monitoring and maintaining of the transportation system of the City.

Transportation system. The structures, traffic controls, streets and other facilities in the public right-of-way, including but not limited to, bridges, sidewalks and alleys, which are dedicated to the use of vehicular and pedestrian traffic, all of which are owned and/or controlled by the City, and including provisions for additions, improvements and extensions to the system.

Trip factor. A principle basis of service measurement, principally derived from the average weekday trip rates calculated using the Institute of Transportation Engineers Trip Generation Manual Edition 9, as modified by the City.

Trip factor index. The table of applied land uses recognized by the City for purposes of implementing the street maintenance fee.

Utility account. An account or accounts between a customer and the City for services provided by the City, which may include water and wastewater, solid waste, drainage, street maintenance, and other municipal services and charges.

Utility customer ("customer"). The holder of a utility account or the person who is responsible for the payment of charges of a utility account.

(b) Establishment and revision of street maintenance fee.

- (1) The City has established a street maintenance fee to be paid by utility customers within the City limits. Such fee shall be set in amounts which will provide funds to properly maintain the transportation system.
- (2) Collection of the fee shall be made by a monthly charge to be added to the City municipal account statement.
- (3) There is established a street maintenance fee based upon the cost of properly maintaining the transportation system as provided in the City's Fees and Charges Ordinance, and which may be changed or modified as set forth in subsection (o) below.

(c) Street maintenance fund.

(1) A separate and dedicated fund shall be created effective October 1, 2018, to be known as the street maintenance fund. All fees collected by the City for the purpose of construction and maintenance of the transportation system shall be deposited in the street maintenance fund. It shall not be necessary

or required for the expenditures from the fund to specifically relate to any particular property from which the fees were collected.

a. Billing will begin for commercial and residential accounts on January 1, 2019.

(2) A report of the street maintenance fund and the street maintenance fee program will be provided to the City Council on an annual basis.

(d) *Street Maintenance Advisory and Appeals Board.*

(1) The board shall:

- a. Advise the Director of Public Works, as may be necessary from time to time, to identify and determine the sequencing of street maintenance projects, and thoroughfare alignments;
- b. Recommend a list of projects for funding to the City Manager for incorporation into the City's annual budget;
- c. Advise the Director of Public Works in determining accountability criteria to measure the performance of the City's street maintenance program;
- d. Submit an accountability report to the City Council on an annual basis;
- e. In the event the City Council adopts a street maintenance fee, serve as a final appeals board for any land use category classification disputes arising from the administration of the street maintenance fee program; and
- f. Aid the Director of Public Works in establishing new land use categories, amending land use categories, and determining trip factors based on the ITE Trip Generation Manual 9th edition to the same.

(2) That the board shall be comprised of seven (7) voting members, who will be appointed by the Mayor and confirmed by an affirmative vote of at least four (4) members of the City Council. All voting members of the board shall be residents of the City.

(3) That the board shall follow the rules of procedure adopted by the City Council, as applicable, for its rules of procedure.

(4) That the Director of Public Works for the City, shall be an ex officio, non-voting member of the board and may act in an advisory capacity to the board.

(e) *Imposition of fee.* There is hereby imposed upon the utility customers within the City limits, a street maintenance fee. This fee is deemed reasonable and necessary to pay for the operation, administration and maintenance of the transportation system.

(f) *Findings.*

(1) The number of motor vehicle trips generated by a benefitted property may reasonably be used to estimate the prorated cost of the street system attributable to a benefitted property.

(2) The size and use of a benefitted property may reasonably be used to estimate the number of motor vehicles trips generated by the property.

(3) Based on the best available data, the method of imposing the street maintenance fee reasonably prorates the cost of the transportation system among the benefitted properties.

- (4) It is reasonable and equitable to impose a set monthly fee per each residential and nonresidential benefitted property in order to avoid a disproportionate burden on any residential or nonresidential benefitted property.
 - (5) If available, appraisal district property tax records may be relied upon to determine the size of nonresidential benefitted property.
 - (6) It is reasonable and equitable to consider trip generation rates for nonresidential property from the Institute of Transportation Engineers in determining the trip factor used for benefitted properties.
- (g) *Determination of street maintenance fee.*
- (1) The street maintenance fee for residential property shall be charged monthly to a utility customer within the City limits, or to the person or entity responsible for the municipal account statement for such lot, unit, tract, or parcel used for a residential purpose. Residential property is defined on the street maintenance fee schedule as rate codes R1, MF, and LM1.
 - (2) The calculation of the street maintenance fee for residential property is determined by multiplying the per month fee for the rate code by the multiplier identified in the street maintenance fee schedule, and further defined as follows: R1 and LM1 units are charged per non-irrigation meter, MF units are charged per dwelling unit.
 - a. For example, a single-family residence (rate code R1) with one (1) nonirrigation meter is charged eight dollars and seventy-five cents (\$8.75) per month ($\$8.75 \times 1 = \8.75).
 - b. For example, a multifamily residential property (rate code MF) with one hundred (100) dwelling units is charged eight hundred dollars (\$800.00) per month ($\$8.00 \times 100 = \800.00).
 - (3) a. The street maintenance fee for nonresidential property shall be charged monthly to a utility customer within the City limits, or to the person or entity responsible for the municipal account statement for such lot, unit, tract, or parcel used for a nonresidential purpose. The monthly fee for the nonresidential property is determined by its base trip rate range as shown in the attached street maintenance fee schedule rate codes (C1—C6), and further defined as follows:

Rate Code	Base Trip Rate Range
C1	0 to 4.99
C2	5.00 to 14.99
C3	15.00 to 49.99
C4	50.00 to 199.99
C5	200.00 to 999.99
C6	1,000.00 or greater

- b. The calculation of the base trip rate for nonresidential property is determined by identifying the appropriate land use category on the trip factor index for the property, multiplying the trip factor for that land use category by the unit of measure for that land use category, and dividing by two (2).
- c. The land use categories, trip factors, and units of measure listed on the trip factor index are based on the Institute of Transportation Engineers Trip Generation Manual, 9th edition, as modified by the City, and are the number of trips anticipated to and from a benefitted property per its land use and established units, as amended for local conditions.
- d. The trip factor index shall be created by separate resolution of the City Council, and may be amended or modified as determined by the City Council with or without recommendation of

the Street Maintenance Advisory and Appeals Board. The current trip factor index shall be kept on file with the City Secretary.

- (4) The following mathematical formula shall be used to determine the base trip rating for the street maintenance fee program:
- a. Base trip rate = (Number of units × trip factor) 2.
 - b. Base trip rates are calculated to the nearest hundredths of a decimal point, and are not rounded up.
 1. For example, a two thousand five hundred (2,500) square foot general office has a trip factor of 11.03 per one thousand (1,000) square feet of building area. In this example, the general office would have a base trip rating of 13.78. $[(2,500 \text{ square feet} \div 1,000) \times 11.03 \div 2 = 13.78]$. This general office would be charged rate code C2.
 2. For example, a gas service station, with a market has twenty-four (24) fueling stations, and has a trip factor of 162.78. In this example, the gas station would have a base trip rating of 1,953.36. $[(24 \times 162.78) 2 = 1,953.36]$. This gas station would be charged rate code C6.
- (5) Collection of the street maintenance fee contribution from McMurry University, Hardin-Simmons University, and Abilene Christian University properties shall be charged pursuant to a memorandum of understanding between the universities and the City.
- (6) The street maintenance fee for a single building with a single use, and with multiple water meters, shall be calculated and charged monthly to the utility customer for one (1) meter only.
- a. For example, a church building, having a single use, and having multiple water meters, would be charged monthly for one (1) meter only.
- (h) *Billing and collection of fee.* The fee shall be billed and collected with the monthly municipal account statement, and shall be due upon receipt.
- (i) *Recovery of unpaid fee.* Any fee due hereunder which shall not be paid when due may be recovered in action at law by the City. In addition to any other remedies or penalties provided by this section or this Code, failure of any customer of the City utilities to pay the fees promptly when due shall subject such customer to the discontinuance of utility services provided by the City.
- (j) *Request for modification or adjustment.*
- (1) The City Manager, or his or her designee, shall consider a written request for a modification or adjustment of the payment of a street maintenance fee only for the following reasons:
 - a. The customer believes the street maintenance fee was charged in error; or
 - b. The customer disputes the category of land use used in calculating the fee for the owner's benefitted property.
 - (2) Such written request for modification or adjustment must be received by the City Manager no later than ten (10) business days from the date of delivery of the municipal account statement which is being disputed. The City Manager shall make his or her decision based upon the information provided in the written request. The City Manager may also, in his or her sole discretion, contact the customer directly for additional information. It is the responsibility of the customer to provide such documentation as may be necessary to prove the sufficiency of their request for an adjustment or modification.

- (3) The City Manager shall determine and inform the customer in writing of his or her decision within thirty (30) days from receipt of the written request for modification of adjustment.
 - (4) *Appeals of requests.* In matters relating to subsection (j)(1)a above, the decision of the City Manager shall be final, and no appeal may be taken therefrom. In matters relating to subsection (j)(1)b above, the customer may file a written appeal to the Street Maintenance Advisory and Appeals Board. Such written appeal must be received by the City Manager no later than ten (10) business days from the delivery of the City Manager's determination letter. The Street Maintenance Advisory and Appeals Board shall hear the appeal at a public meeting within sixty (60) days from the date of receipt of the written appeal. The decision of the Street Maintenance Advisory Board shall be final, and no further appeal may be taken.
 - (5) During all periods of the request for modification or adjustment process, including any appeal, the customer shall be responsible for the payment of the street maintenance fee in full.
 - (6) A customer appealing the street maintenance fee may not receive a refund resulting from the modification or adjustment except for a street maintenance fee billed within six (6) months of the date of the customer's original written request for modification or adjustment to the City Manager.
- (k) *Disposition of fees and charges.* The fees paid and collected by this section shall not be used for the general government administrative purposes of the City, except to pay for the equitable share of the cost of accounting, management and government thereof. Other than as described above, the fees and charges shall be used solely to pay for the actual costs of operation, planning, engineering, development of guidelines and controls, inspection, maintenance, repair, improvement, additions, extensions, renewal, replacement and reconstruction of the transportation system and costs incidental thereto.
 - (l) *General exemption.* Properties owned by the United States of America, the state, an agency, or institution created by the state, or a political subdivision of the state are exempt from the payment of the street maintenance fee.
 - (m) *New business exemption.* A property that establishes a new utility account for the purposes of starting a new business within the City on or after January 1, 2019, is exempt from the street maintenance fee until the third anniversary of their utility start of service. This exemption shall not be applied to the same utility account more than once. The City Manager shall determine if the business constitutes a new business. The decision of the City Manager may be appealed to the Street Maintenance Advisory and Appeals Board.
 - (n) *Fee reduction.* Those persons who make fifty (50) percent or less of the median family income as defined by the City's office of neighborhood services are eligible to pay the reduced "LM1" rate as provided in the street maintenance fee schedule. The City Manager, or his or her designee, shall administer this application process, and such applications shall be on file with the City Secretary.
 - (o) *Periodic "sunset" review.* The Street Maintenance Advisory and Appeals Board shall review the street maintenance fee program as may be requested by the City Council, and shall recommend to the City Council whether the street maintenance fee program should be continued or discontinued, or if a reduction or increase in fees are necessary to properly maintain the transportation system. The City Council shall consider the recommendations of the Street Maintenance Advisory and Appeals Board and shall take such actions as they deem necessary in regard to the street maintenance fee program. Nothing herein shall limit or restrict the City Council from increasing or decreasing the street maintenance fee.
