**PROPERTY TAX ABATEMENT POLICY
CITY OF ABILENE, TEXAS**

This revised policy adopted by the Abilene City Council on September 10, 2009

PHILOSOPHY

Tax abatement is an economic development tool to mitigate the heavy costs usually associated with the construction of a new facility or structure, or expansion and/or modernization of an existing facility or structure that enhances the economic or social base of the community. Because property tax revenue is a means to provide vital community services, it is the philosophy of the City of Abilene that tax abatement be utilized sparingly, and only after careful consideration of the economic impact for Abilene. Nothing herein shall imply or warrant that the City of Abilene is under any obligation to provide tax abatement to any applicant.

ELIGIBILITY

This policy document provides criteria for eligibility and aspects of implementation as adopted by the City Council of the City of Abilene, in accordance with Texas Tax Code, Chapter 312, otherwise known as the *Property Redevelopment and Tax Abatement Act (Act)*, governing property tax abatement agreements. All applications will be considered on a case-by-case basis.

The following types of enterprises are eligible to apply for tax abatement:

- Industrial
- Manufacturing
- Distribution
- Service
- Multi-family residential properties
- Hotels/motels

Eligible property upon which abatement may be granted includes real property and/or tangible personal property located on the real property other than that personal property that was located on the real property at any time before the abatement agreement is executed. **Excluded from eligible personal property are inventory and supplies.**

If any business is located or will locate within one of Abilene's state-designated enterprise zones, an additional 5-10% abatement may be available, as individually negotiated, with total abatement not to exceed 100%. A state-designated enterprise zone includes any census tract block group within the Abilene City Limits which according to the 2000 federal decennial census is a block group in which at least 20% of the residents have an income at or below 100% of the federal poverty level.

*INDUSTRIAL, MANUFACTURING, DISTRIBUTION
AND SERVICE BUSINESSES*

Tax abatement may be available to industrial, manufacturing, distribution and service businesses located anywhere within Abilene's city limits based on the following:

| Level | Capital Expenditure | | Possible Abatement | |
|-------|---------------------|--------------|--------------------|------------|
| | Min | Max | Years 1-5 | Years 6-10 |
| 1 | \$1,000,000 | \$4,999,999 | 25% | 15% |
| 2 | \$5,000,000 | \$9,999,999 | 50% | 25% |
| 3 | \$10,000,000 | \$24,999,999 | 75% | 50% |
| 4 | \$25,000,000 | \$99,999,999 | 100% | 75% |
| 5 | \$100,000,000 | or more | 100% | 100% |

MULTI-FAMILY RESIDENTIAL PROPERTIES

Tax abatement may be available to multi-family residential projects on land zoned Central Business District (CBD) and/or Pine Street Corridor Overlay as shown on the official zoning map of the City of Abilene. Each project will be considered on an individual basis with consideration being given for number of jobs created and/or the total amount of capital investment and/or the historic significance of the structure. Total abatement shall not exceed 100% and 10 years.

Tax abatement for real and personal property may also be available to multi-family residential projects that qualify under federal government guidelines established to address housing needs for low-moderate income individuals. Each project will be considered on a case-by-case basis with consideration being given for the location and amount of capital investment in the project. Total abatement shall not exceed 100% and 10 years.

HOTELS/MOTELS

Tax Abatement may be available to hotels/motels on land zoned Central Business District and/or Pine Street Corridor Overlay as shown on the official zoning map of the City of Abilene. Each project will be considered on an individual basis with consideration being given for the total amount of capital investment, the number of hotel/motel rooms involved, and the historic significance of the structure. Total abatement shall not exceed 100% for 10 years.

GUIDELINES

1. Tax abatement applies to increases in real and/or personal property due to the construction of new facilities and structures as well as the expansion or modernization of existing facilities and structures.

2. Tax abatement can apply to a leased facility; however, the agreement shall be executed only with the property owner.
3. *Tax abatement may be granted only for the additional value of eligible property improvements or repairs made and specified in an abatement agreement between the City and the property owner or lessee, subject to such limitations as the City may require.*

The additional value must exceed any reduction in the fair market value of other eligible property of the owner located within the City's jurisdiction. Change in appraised value does not qualify for abatement except in the instance where a previously vacant facility is utilized. Value added to the tax rolls must come from actual capital expenditures.

4. Real and/or personal property tax abatement may be granted only to the extent that the property value for each year of the agreement exceeds the property value for the year in which the agreement is executed. The value for the year in which the agreement is executed shall be referred to as the "base value" and shall be the January 1 valuation of the year in which the agreement is executed.
5. With the intent of avoiding any possible erosion of the existing tax base, the City reserves the right to determine the base value upon which abatement may be calculated if the applicant owns other property(ies) in town which may be affected by the granting of tax abatement.
6. A tax abatement agreement may not be executed unless the area for which tax abatement is requested meets the criteria for designation as a tax abatement reinvestment zone as set forth in the Act. Areas located in one of Abilene's state-designated enterprise zones meet the criteria without further designation. The City Council may adopt an ordinance designating a tax abatement reinvestment zone only after a public hearing has been held. In addition, the City Council will determine if the proposed improvements or repairs are feasible and practical and would be a benefit to the city after expiration of a tax abatement agreement.
7. No tax abatement agreement for industrial, manufacturing, distribution and service businesses shall exceed a term of 10 years from the date of execution.
8. Individual taxing units governing a reinvestment zone with the exception of a school district may choose to grant tax abatement to an owner or lessee, but according to the Act if granted, the terms of the agreement are not required to be identical to the agreement approved by the City.
9. At any time before expiration, any tax abatement agreement may be terminated or modified by the City if the property owner fails to comply with the terms of the agreement.
10. The City and property owner may agree to defer the commencement of the abatement period until a date that is subsequent to the agreement date; however, no abatement period may exceed 10 years.

CRITERIA

1. A tax abatement agreement must:

- list the kind, number, and location of all proposed improvements to the property;
 - provide for City of Abilene employees to have access to and authority to conduct inspections of the eligible property to ensure that the improvements or repairs are made in accordance with the agreement and in compliance with all relevant local, state, and federal laws and regulations including, but not limited to Building, Plumbing, Water, Electrical, Mechanical, and Fire Codes;
 - limit the uses of the eligible property to remain consistent with the general purpose of encouraging development or redevelopment of the zone during the term of the tax abatement agreement;
 - provide for recapturing property tax revenue lost as a result of the agreement plus a penalty of 5% of the amount of lost revenue if the owner of the eligible property fails to:
 - Make the improvements or repairs as provided in the agreement, or
 - Meet any other performance criteria specified in the agreement.
 - contain each term agreed to by the property owner;
 - require the owner of the property to certify annually to the City of Abilene that the owner is in compliance with each applicable term of the agreement; and
 - provide that the Abilene City Council may cancel or modify the agreement if the property owner fails to comply with the agreement.
2. The owner of eligible property requesting tax abatement within a tax abatement reinvestment zone or enterprise zone shall invest a minimum amount of capital as further defined herein.
3. If the minimum requirements are not met during the first three years of the agreement, the percentage of abatement shall be reduced to the level of abatement at which minimum requirements have been met, and any taxes abated before the adjustment may be recaptured by the City.

2. Tax abatement can apply to a leased facility; however, the agreement shall be executed only with the property owner. In such cases, the property owner shall demonstrate binding contract(s) with the lessee(s) to guarantee job creation.
3. *Tax abatement may be granted only for the additional value of eligible property improvements or repairs made and specified in an abatement agreement between the City and the property owner or lessee, subject to such limitations as the City may require.*

The additional value must exceed any reduction in the fair market value of other eligible property of the owner located within the City's jurisdiction. Change in appraised value does not qualify for abatement except in the instance where a previously vacant facility is utilized. Value added to the tax rolls must come from actual capital expenditures.

The number of full-time equivalent employment positions is determined by adding the total number of hours worked and/or actual paid leave (such as vacation, sick leave, jury duty) of all employees, less overtime hours, and dividing that sum by 2,080. All existing jobs as well as those created must be maintained throughout the term of a tax abatement agreement.
