ORDINANCE NO. 16-2014

EXHIBIT "A"

**AMEND:** Section 3.2.5.2 The City System

- **REVISE:** Add language to allow City Council to review and decide on use of on-site sewage disposal systems.

**Section 3.2.5.2 The City System**

- (a) Extension. Extension of the City of Abilene's sanitary sewer system shall be required for any subdivision within City limits. Extension of municipal sewers shall also be required, outside City limits, for any subdivision comprising a lot or lots less than one-half (1/2) acre in size if served by a public water supply or a lot or lots less than one (1) acre on other properties. In no way is the City of Abilene obligated, however, to permit extension of municipal sewers outside City limits.
- (b) Waiver. The required extension of municipal sewers may be waived wherever the City Council finds that:
1. such extension would require unreasonable expenditures, as compared with other methods of sewage disposal,
  2. on-site sewage disposal facilities will function properly, and
  3. there are not substantial negative impacts for development on adjacent properties and surrounding areas.

The advice of the Planning Director and the Director of Water Utilities, or designees, shall be considered in making a decision.

- (c) On-site sewers in lieu of extension of City sanitary sewer system. In a proposed subdivision where public wastewater facilities are not currently accessible, but are expected to be extended to the property in the future, the subdivider receiving a waiver may be required to install sewer lines meeting all applicable standards throughout the subdivision for future connectivity.
